Under the Stars

Our Mission

Early detection of breast cancer gives a woman her best possible chance of survival. However, nearly 15,000 women in United Health Centers' care are referred for the screening exam each year, and less than half are able to complete it. The issue is access: transportation to far away imaging centers, time off work, cultural and educational barriers, and the list goes on. 1 in 8 women will be told she has breast cancer during her lifetime, which means hundreds of unscreened women in our Valley may be living with breast cancer right now – *and not know it*. We must do better, and we are. United recently opened its very first breast cancer screening suite at its Fresno Minnewawa Health Center, but there is more to be done. United's vision is to deliver a complete breast care program that empowers all women in our Valley with access to the care, information, and resources required to be adequately screened for breast cancer. The Foundation shares in this commitment, and we hope you do, too. This year's ***Under the Stars*** gala will raise private support to advance breast care for all of the women who are counting on us, in addition to the families who love them.

Sponsor opportunities are enclosed, and we hope you'll join us for a meaningful and inspiring evening ***Under the Stars!***
